

# Biomedical Research Collection

The Biomedical Research Collection from Mary Ann Liebert, Inc. is a must-have for all medical and academic research libraries, providing comprehensive, interdisciplinary research from first-in-field titles that are critical for departments of immunology, molecular and cellular biology, neuroscience, pathology, cancer research, pediatrics, integrative biology, and pharmacology.

- AIDS Research and Human Retroviruses
- Antioxidants & Redox Signaling
- Astrobiology
- Brain Connectivity
- Cancer Biotherapy and Radiopharmaceuticals
- Cannabis and Cannabinoid Research
- DNA and Cell Biology
- Foodborne Pathogens and Disease
- High Altitude Medicine & Biology
- Journal of Aerosol Medicine and Pulmonary Drug Delivery
- Journal of Computational Biology
- Journal of Integrative and Complementary Medicine
- Journal of Interferon & Cytokine Research
- Journal of Medicinal Food
- Journal of Neurotrauma
- Journal of Ocular Pharmacology and Therapeutics
- Lymphatic Research and Biology
- Metabolic Syndrome and Related Disorders
- Microbial Drug Resistance
- Monoclonal Antibodies in Immunodiagnosis and Immunotherapy
- OMICS: A Journal of Integrative Biology
- PHAGE: Therapy, Applications, and Research
- Vector-Borne and Zoonotic Diseases
- Viral Immunology
- Zebrafish
